

Preventive Medicine

Everyday Pack

DESCRIPTION

The Everyday Pack is a natural daily preventative pack that supports optimal health with comfortable and safe levels for everyone. The Everyday Pack gives patients pure and natural, well balanced nutritional support.

FUNCTION

The Everyday Pack combines many different vitamins together to create an all natural preventive support system. The pack is made up of six different capsules that provide a range of health benefits. The Natural Vitamin E capsule is an anti-oxidant which retards aging and support healing. Fat soluble but safe because it is stored in the body for a short time much like Vitamin B and C. The Vitamin C with Bioflavonoids capsule enhances immunity and supports infection resistance. Vitamin C is an anti-oxidant and also has properties that help reduce aging and stress. In the Detoxifying Greens Capsule powdery barley greens, spirulina and wheat grass provide for detoxification and rapid transport of nutrients. This capsule naturally provides B vitamins, chlorophyll, fiber, essential fatty acids and protein. The Ginkgo Biloba Capsule contains a natural botanical which supports optimal mental performance and heightens circulation to cerebral tissues. In the Ubiquinone Capsule, CoEnzyme CoQ-10, naturally found in many foods, is a therapeutic nutrient which helps produce energy. Coq-10 also has anti-aging properties and has been found to support cardiovascular health. The Multi-Vitamin and Mineral Capsule provides a full spectrum of balance natural nutrients.

INDICATION

The Everyday pack was designed for patients that wanted a pure and natural balance of helpful nutrients needed to achieve optimal health.

FORMULA

Serving Size: 1 Packet

Calories: 10

Calories from fat: 9

Total Fat: 1 g

Total Cholesterol: 6 mg
