## Gluconic DMG

### DESCRIPTION

DaVinci's Gluconic DMG is a dietary supplement that supports immune system, circulatory, cardiovascular and neurological functions, muscle recovery and endurance.

### FUNCTIONS

As a metabolic enhancer, DMG supports the body in times of stress, throughout the aging process, and during immune system challenges. DMG is an intricate part of human metabolism and has been used in the health field as a nutritional supplement for over 45 years.

Research and clinical experience has shown that DMG supports the following:

- Oxygen utilization.
- Strengthening both arms of the immune system, including antibody, lymphocyte and cytokine production.
- Detoxification functions for liver support.
- Circulation and vascular health.
- Glucose and fat metabolism.
- Blood pressure, cholesterol, triglycerides and homocysteine levels within normal ranges.
- Physical and mental energy levels by reducing lactic acid build-up during periods of stress.
- Mental alertness and brain function.
- As an indirect methyl donor it provides building units for the biosynthesis of vitamins, hormones, neurotransmitters, antibodies and nucleic acids.

### INDICATIONS

DMG is an adaptogen that can be used to support the immune system, circulation, oxygen utilization, physical and mental performance.

### FORMULA

**Serving Size:** 1 Tablet

**Amount Per Serving**

N,N-Dimethylglycine ..... 125 mg

### SUGGESTED USE

Dissolve 1 tablet under tongue daily.  
Or take as directed by your healthcare practitioner.

Product can be dissolved in cold water but should be drunk immediately

### SIDE EFFECTS

If pregnant or nursing, consult your healthcare practitioner before taking these products.

### STORAGE

Store in a cool, dry place, away from direct light and should be kept in foil wrap until each use. Keep out of reach of children.
