

Core Immune Support

MC-BB-1™

MC-BB-1™ may be helpful in the management of microorganisms.* This blend contains constituents such as Plantain Leaf and Black Walnut.* These herbs have a long history of traditional use as nutritional supports against parasitic activity.* Additionally, studies indicate that Plantain Leaf has shown anti-inflammatory and hepatoprotective activities.* Plantain also exhibits immune enhancing and tissue healing activity and enhances lymphocyte proliferation.* Studies reveal that Licorice may also inhibit microbial activity, as well as inhibit extracellular proliferation.* Licorice is widely used in European medicine, and has been used in holistic medicine for several thousand years*. MC-BB-1™ may be used with other core immune support blends. *It is highly suggested to use the appropriate TOX-EASE™ formulas when recommending MC-BB-1™.** This may assist in eliminating significant Herxheimer reactions.*

Suggested Use:

Start with 2–3 drops, 3 times daily. As with other extracts, continue to gradually increase drops until desired results are achieved. *For gentler effect, begin with 1 drop, 2–3 times daily.*

WARNING: If pregnant, nursing, or taking medications, consult your healthcare professional before use.
