

Preventive Medicine

Vitamin D3 5000 IU

DESCRIPTION

Vitamin D3 softgels contains 5,000 I.U. of natural vitamin D3.

requirements for vitamin D cannot be met by lower potency products.

FUNCTION

Vitamin D is a fat-soluble vitamin that is essential for maintaining normal calcium metabolism. Vitamin D3 can be synthesized by humans in the skin upon exposure to ultraviolet-B radiation from sunlight, or it can be obtained from diet. The bioavailable form of vitamin D in the Vitamin D3 5000 IU softgels is solubilized in oil to support absorption in the intestinal tract. Vitamin D supports cardiovascular health by maintaining blood pressure within normal ranges. Vitamin D also impacts heart health by supporting the body's natural cytokine production and vascular function.

- Supports bone, cardiovascular, and immune health.*
- Provides high dose vitamin D3 (5000 IU) to quickly replenish vitamin D status.*
- Solubilized in oil for better absorption in the digestive tract.
- Promotes healthy cell growth

FORMULA

Serving Size: 1 Softgel

Vitamin D3 (as cholecalciferol).....5000 IU

SUGGESTED USE

Take one softgel daily or as directed by your healthcare practitioner. Do not exceed recommended dosage unless directed by your healthcare practitioner.

SIDE EFFECTS

If pregnant or nursing, taking other nutritional supplements or medication, consult your healthcare practitioner before use. This product contains vitamin D at a level that exceeds the adult tolerable upper intake level, the maximum daily intake unlikely to result in adverse effects in the most sensitive individuals+. Keep out of the reach of children.

INDICATIONS

Vitamin D 5000 IU may be a useful dietary supplement for those individuals wishing to support general health or whose
